EDUCATION

-
- **Texas A&M University** August 2017 - May 2021
Dwight College of Engineering, Bachelor of Science in Computer Science GPA: 3.961

EMPLOYMENT HISTORY

-
- **Texas A&M Department of Engineering** College Station, TX
Peer Teacher September 2019 - Present
 - Assist students during class time and office hours with questions they may have related to computer science coursework. Host weekly review sessions to help ensure students learn and understand certain concepts.
 - **Texas A&M Emergency Medical Services** College Station, TX
Standby Emergency Medical Technician December 2018 - Present
 - Function as an EMT for events put on or sponsored by the University. Ensure that in the case of a medical or traumatic emergency those involved are properly attended to and taken care of.
 - **Escape Rooms HQ** Lewisville, TX
Game Master July 2016 - July 2017
 - Responsible for running games and resetting rooms, along with ensuring customers had a good experience throughout their visit. Furthermore, tasked with keeping customers happy and helping resolve any issues they may have.
 - **Discount Tire** Flower Mound, TX
Tire Technician January 2017 - June 2017
 - Responsible for rotating, changing, and airing up tires. Along with pulling in customers cars, torquing down the wheels, delivering the car back to the customer, and answering any questions the customer may have.

ORGANIZATIONS

-
- **Cybersecurity Club** September 2018 - Present
 - Attend weekly meetings discussing industry practices and the use of technologies for networking and penetration security through both seminars and competitions.
 - **Engineering Honors** January 2018 - January 2020
 - Provides an opportunity to network and expand my knowledge through interactions with professionals in the computer science field. Currently helping me to receive graduate level credit hours, which will enable me to earn a masters shortly after completing my bachelors.
 - **BUILD** January 2018 - December 2018
 - Texas A&M University's BUILD is a student led organization whose current mission is renovating and converting shipping containers into portable medical clinics. Responsible for helping to procure and deliver materials needed for the work site, along with construction of the containers while operating in small teams.
 - **Freshman Reaching Excellence in Engineering** September 2017 - May 2018
 - First year at A&M, was apart of an organization called Freshmen Reaching Excellence in Engineering. Tasked with organizing events and interacted with professionals whom have careers in Engineering.
